

NAU 90-30 Partnership Programs

West-MEC students can begin their associate degree while in high school by taking dual enrollment courses and by advancing their PLA credit opportunities with Maricopa Community colleges. Through a unique partnership with NAU, when students complete an associate's degree and 90 credits at a Maricopa Community College, they can finish their bachelor's degree with NAU in one year. The 90/30 programs offered through NAU are the most affordable path to completing a bachelor's degree. The NAU courses can be completed online or on a Maricopa Community College campus, thus enabling students to live and work within Maricopa County.

Each West-MEC program with a 90-30 pathway to NAU has a detailed degree map published here <https://www.west-mec.edu/early-college-pathways/>. Further, students also have the option to complete the Bachelor of Science in Education Career and Technical Education 90/30 program if they are interested in teaching in secondary or post-secondary school.

West-MEC Program

- Aesthetics
- Automotive Technology
- Coding
