West-MEC reopens for the new academic year

Glendale, Ariz.(5 August, 2021) -- In the first week of August, West-MEC, a Career and Technical Education (CTE) district in the valley, welcomed students on all four of its campuses for the 21-22 school year.

There was a significant influx of students and the enrollment numbers for the academic year 21-22 are strong with waitlists in some programs across campuses. The programs offered are taught by industry experts and help prepare students for valuable certification and industry credential exams.

Central Campus Administrator, Troy Gabaldon said, "We look forward to teaching students relevant skill sets and engaging with the local community through events, externships and more."

West-MEC CTE programs are based on in-demand industry skills and open opportunities to various pathways including direct employment, further education and entrepreneurship. Apart from the hands-on learning students are trained in leadership and professionalism skills.

Being a public school district, West-MEC serves over 48 schools with over 37,000 students through all four campuses and CTE programs on home school campuses. Back to school information including important dates, class timings and guidelines can be found on www.west-mec.edu.

About West-MEC:

West-MEC is a career technical education public school district that focuses solely on innovative career and technical education (CTE) programs that prepare students to enter the workforce and pursue continuing education. West-MEC CTE programs provide students opportunities to earn college credit and industry credentials. West-MEC serves more than 37,000 students from 48 high schools, across 3,600 square miles in the northern and western cities of the Phoenix Metropolitan area. West-MEC now also offers adult education programs. Visit www.west-mec.edu for more information about

West-MEC's career-driven education opportunities or follow us on Facebook, Twitter, and Instagram.
