West-MEC launching new website

Glendale, Ariz. (September 2022) – West-MEC, a career and technical education public school district, launched its all-new website today.

The site includes a multitude of updated features and an easier to navigate interface for users. The features include student testimonials, student stories and a complete design overhaul. Accessibility has also been streamlined to assist in web navigation for all.

This was a year-long process with valuable feedback from internal and external stakeholders.

“We are excited to introduce our new site that represents our West-MEC brand and showcases our commitment to economic development for students,” said West-MEC Public Relations Administrator Chris Cook. “Sharing our students stories and skills they’ve learned at West-MEC, such as our students who helped rebuild a home for someone, was a main priority.”

The site launched earlier this morning, Sept. 1.

About West-MEC:

West-MEC is a career technical education public school district focusing solely on innovative career and technical education (CTE) programs that prepare students to enter the workforce and pursue continuing education. West-MEC CTE programs provide students opportunities to earn college credit and industry credentials. West-MEC serves more than 37,000 students from 48 high schools across 3,800 square miles in the northern and western cities of the Phoenix Metropolitan area. West-MEC now also offers

adult education programs. Visit www.west-mec.edu for more information about West-MEC's career-driven education opportunities, or follow us on Facebook, Twitter, and Instagram.
